TEAM
Our hard working team
21471A05H6
Conducted data integration and cleaning, identified missing values and outliers, and performed data exploration and preprocessing
21471A05J7
Recognized crucial variables and relationships, devised new variables, and performed standardization and normalization.
21471A05H1
Examined correlations and patterns, constructed predictive models, interpreted outcomes, and extracted insights from the analysis
21471A05J9
Generated visualizations, compiled a project report, summarized critical insights and findings, and designed interactive dashboards.
